

Vår produktion. Svenskt hantverk.

Vi värnar om våra hantverkstraditioner. Detta är ett sätt att arbeta med hållbarhet och omtanke om miljön.

Samarbete sker med en rad tillverkare i vår geografiska närhet som alla är specialister inom sitt respektive skrå: svarvare, träbearbetare, glasblåsare och sadelmakare för att nämna några.

Merparten av vårt glas blåses på Bergdalahyttan. Vi tillvaratar kunskapen i vår närhet och den mångåriga traditionen av glastillverkning i Småland får leva vidare.
