SILUETT designed by Malin Sköld 2010

Siluett takes the concept of an illusion to another level. The graphic outline of a lamp has been developed into a three-dimensional form. The expression is changing, subject to where it is seen from. With characteristics stripes, Siluett creates an interesting shimmer. Available in appr. 16 colours. Colors can be changed at any time. Made of acrylic.

	Article number	total height mm	width mm	depth mm	Bulb	Flex mm
Table lamp	SIL46T	460	235	80	E14 led	transparent 1650 with dimmer
Table lamp	SIL66T	660	342	110	E27 led
